### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: the closest prior art reference of record is the patent to Endo, as cited in the previous action. However, Endo fails to teach or suggest the features of ripping apart an existing software object, treating each part as an independent object and reconstituting the ripped apart objects into a whole object with changes from the separately controlled parts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
